

**CHELSEA GROUP, LTD.**  
**KEVIN CHOCK**  
**REGIONAL TECHNICAL MANAGER**

HONOLULU

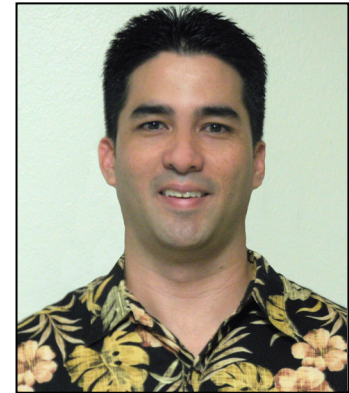

CHICAGO

PHOENIX

Kevin Chock has over 11 years of engineering experience, with extensive knowledge in energy efficiency technologies, capital improvement planning, and project management experience. He has experience with building mechanical system design and operation. At Chelsea Group, Mr. Chock is Regional Technical Manager, overseeing day-to-day operations and providing technical oversight and project management for the Hawaii and Pacific region. He has worked with numerous clients on a wide-range of energy saving initiatives, from industrial wastewater pumping systems, and energy management control systems, to commercial building HVAC systems. Mr. Chock has provided client assistance with obtaining the U.S. EPA Energy Star Label and the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) certification. He brings a high-level of commitment and experience in customer service and providing bottom-line results to clients.

Prior to joining Chelsea Group, Mr. Chock held numerous positions with Hawaiian Electric Company (HECO), including work as a Program Engineer with the company's energy efficiency programs. There he oversaw the energy efficiency offerings to some of HECO's largest commercial and industrial customers, including the Dept. of Defense, and assisted such clients with design review, energy efficiency evaluations, and in obtaining utility-rebates. As a HECO Account Manager, he provided value-added services to HECO's large commercial and industrial clients on all energy related matters.

Prior to joining HECO, Mr. Chock worked in various engineering and supervisory roles in the pulp and paper industrial manufacturing industry, with a strong background in preventive maintenance programs.

Mr. Chock is an active member and former board member of the Building Owner and Management Association (BOMA) Hawaii Chapter. He is also a frequent speaker at workshops, seminars, and conferences on various energy efficiency topics. Mr. Chock is an Association of Energy Engineers (AEE) Certified Energy Manager (CEM). Mr. Chock is a USGBC LEED Accredited Professional (LEED AP). He holds a B.S. in Mechanical Engineering and a B.S. in Natural Science.
